LIFE

Keeping in touch with your community

ISSUE 3 DECEMBER 2007

Technology Hits Oyster Harbour

Residents of Oyster Harbour will be the first in the region to utilise leading edge telecommunications services delivered by fibre optic technology as a result of a Telstra Smart Community® agreement signed between Telstra and the Oyster Harbour Joint Venture.

The fibre optic technology, known as Telstra Velocity™, allows residents access to the full range of telecommunications and entertainment services such as BigPond® high-speed internet, digital free-to-air TV and up to four fixed line telephone services via Telstra's fibre optic network. Residents will also be able to access Telstra's Next G™ national mobile network, and receive a \$1500 rebate towards specified Telstra services.

Dedicated Sales Office

From mid December 2007, the sales office will be open on site. Feel free to come and see Judy Crawley from Ray White in Albany, who will be waiting to answer all your Oyster Harbour questions. There is also fantastic new signage at the entrance of the estate, featuring the Oyster Harbour logo, as pictured below.

Stage 1

We are pleased to report that titles were recently issued for Stage 1 of Oyster Harbour, and the majority of settlements have gone through. Since the initial land release of 89 lots in December 2006, only 22 lots remain in Stage 1.

Charity Home

Work has now commenced on site for the RFDS Flying 1000 Charity Home. WA Country Builders have been overwhelmed by the response received from local suppliers and tradespeople, all willing to lend a hand on this exciting and worthy project. For more information about the home, please contact Trish Flynn from WA Country Builders on 9842 8400.

Future Developments

Planning approval has just been granted for the further development of 540 lots, with works to commence on 60 lots in February 2008.

From all of us at the Oyster Harbour Joint Venture, we wish all of you and your families a safe and prosperous Christmas and New Year. 2008 will be an exciting year for Oyster Harbour – stay tuned.

Kind regards

Brian Newman
Project Director
